WHITAKERS

Corrected Through August 17, 1945

OUR aim is to render a service that will be satisfactory to our customers. We realize that difficulties will sometimes occur despite all our efforts to avoid them. Under the listing of the Carolina Telephone & Telegraph Co., are shown the telephone numbers which should be called to report service difficulties.

If at any time difficulties are not promptly corrected or unsatisfactory conditions persist, we shall appreciate your communicating the facts direct to the undersigned.

Carolina Telephone and Telegraph Company

How to Make Out-of-Town Calls

Decide first whether the lower priced "Station-to-Station" service can be used or whether "Person-to-Person" service is necessary. To help you decide these calls are explained below.

How to Place the Call

STATION-TO-STATION CALLS

(From One Telephone to Another)

A station-to-station call is one on which you agree to talk to anyone who answers at the called telephone.

A call filed for a private branch exchange extension station or a hotel room number takes the person-to-person classification.

To place a station-to-station call, give the operator—

First—The name of the place you are calling.

Second—The telephone number you are calling (if known) or address name of called station, if the telephone number is not known. For example: John Doe's Residence—425 Main Street.

Third—Hold the line when requested to do so.

A three-minute connection is allowed before "overtime" charges begin if the initial rate exceeds 25 cents. If less than 25 cents, a 5-minute connection is allowed.

FEATURES OF STATION-TO-STATION CALLS

1. The rates are less than on person-to-person calls.
2. They are completed more quickly.
3. There are no report charges on Station-to-Station calls, except in the case of collect calls not completed because of the refusal of the called party to accept the charges.
4. Person-to-person and station-to-station rates are reduced after 7 P. M. to 4:30 A. M. and all day Sunday if the initial rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the day or night rate applies.
5. Charges begin when the called telephone is answered.
6. Charges may be reversed without any change in rate when the rate is 25 cents or more. A slight additional charge is made when the initial rate is less than 25 cents.

PERSON-TO-PERSON CALLS

(From One Person to Another)

A person-to-person call is one on which you desire to talk to a particular person or a private branch exchange extension station. The rate on a person-to-person call is higher than the rate on a station-to-station call.

To place a person-to-person call give the operator:

First—The name of the place you are calling.

Second—Telephone number of the called station (if known) or the address of the called station if the telephone number is not known.

Third—The name of the person you are calling.

Fourth—Hold the line when requested to do so.

The charges can be reversed.

A three-minute conversation is allowed before "overtime" charges begin.

If the called telephone is reached but the call cannot be completed because the person desired is not available and cannot be reached elsewhere, a nominal report charge is made to compensate the Telephone Company for the work done on the call.

COLLECT CALLS

If the charges on the call you are placing are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted by the subscriber at the distant telephone, will be billed to that telephone. If the charge is not accepted at the distant telephone and the call is not completed, you will be billed with the report charge.

For further information regarding classes of service and rates—call "Long Distance."

RULES AND REGULATIONS APPLYING TO ALL SUBSCRIBERS CONTRACTS

Classification of Areas as the Basis for Furnishing Telephone Service—Economical operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company, therefore, does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded. The general plan for furnishing telephone service as authorized in the General Exchange Tariff is based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

Term Period of Contract—The Company's contracts covering the furnishing of telephone service are ordinarily for initial term periods of one month. Under some special condition involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer initial term periods. The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits.

Construction and Installation Charges—The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service equipment or facilities furnished by the Telephone Company.

Service Connection Charges and Charges for Moves and Changes—A schedule of fixed charges is established covering the connection of a subscriber's station with the exchange of the Company, and covering the charges for moves and changes. These schedules of charges are published in this directory.

Unauthorized Use of the Telephone—Telephone equipment and facilities are furnished for the use of the subscriber, employees, agents, or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

Unauthorized Attachments—The telephone equipment, apparatus and lines furnished shall be carefully used and no instrument, appliance or device, of any kind, not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. In case any instrument, apparatus or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discontinue service without any claim on the part of the subscriber.

No binder, holder or auxiliary covers shall be used in connection with any telephone directory furnished by the Telephone Company.

Changes of Call Numbers—The subscriber has no property right in the telephone number or any right to continuance of service through any certain central office and the Telephone Company may change the telephone number or the central office designation whenever it deems it desirable in the conduct of business.

Party Line Service—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one other subscriber in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariffs, is borne by the Telephone Company. The subscriber is billed the actual cost of each telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

Terms of Payment—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or at any other agency duly authorized to receive such payment. If objection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due or any other violation by the subscriber of the Telephone Company's rules and regulations applying to subscribers' contracts or to the furnishing of service the Company may without notice, either (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due, and in addition a restoration charge of $1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

Uninterrupted Service Not Guaranteed—In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the causes thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or wilful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for such of the telephone service, equipment and facilities furnished as are rendered useless or inoperative. Such allowance covers the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the Telephone Company's equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defacement or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines in establishing wire connection to points not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

Public Pay Station Telephones—Public pay station telephones are located at various points for the convenience of telephone subscribers and the general public. Instruction cards are displayed with each public pay station telephone, explaining the operation and patrons should observe and follow those instructions when making calls.

Telegrams by Telephone—In certain cities telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram, call the telegraph company desired. By arrangement with the telegraph companies, telephone subscribers may have charges for messages received or sent, charged to his telephone, and collected with his telephone bill.

Service Connection Charges and Charges for Moves and Changes

Experience and careful investigation of the entire subject has demonstrated the fact that certain service connection charges covering to some extent the average cost of the initial expense of establishing service for new subscribers and of furnishing additional facilities to old subscribers should be paid by such subscribers and should not be borne by the entire body of telephone users. Therefore, a uniform schedule has been prepared which embodies rates that should not retard telephone development in any section and will place upon subscribers responsible therefor a portion of the costs incident to such service connection, leaving the balance as a charge on the business generally. This schedule is as follows:

SERVICE CONNECTION CHARGES:

1. For Individual and Party Line Service $2.50
2. For each extension station connected with any class of telephone service..$1.50
3. For Private Branch Exchange Service the charge for establishing service connection:
   (a) For each trunk line connecting the Private Branch Exchange with a central office $2.50
   (b) For each telephone connected to the Private Branch Exchange except Operators' Telephone Sets $1.50
4. To cover in part Directory, Accounting, Circuit and switchboard expenses in cases where service is established by the use of instrumentalities already in place in the Subscriber's premises and no change is made in the type or location of such instrumentalities, each main station, $1.00.

CHARGES FOR MOVES AND CHANGES

The charges for moves and changes in equipment will be as follows:

1. For moving a main station telephone set from one location to another, on the same premises, $1.50.

2. For moving an extension station or private branch exchange station of same style instrument from one location to another on the same premises, $1.00.

3. For moving an extension station or private branch exchange station from one location to another on the same premises when the style of instrument is changed to a handset, $1.50.

4. For moving any other equipment or wiring from one location to another on the same premises, a charge based on the cost of labor and material.

5. The Company will, subject to the usual charges above set out, install or change the location of a telephone provided it has facilities available, at as early date as practicable, and the conditions under which it is then working permit.

CAROLINA TELEPHONE & TELEGRAPH COMPANY

"TRAVEL BY TELEPHONE"

It Is Surprising How Little It Costs

Use Long Distance for Out-of-Town Business and Social Affairs

The rates below are for the initial period which is 5 minutes on Station-to-Station calls where the rate is 25 cents or less. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. These rates do not include federal tax. There is a federal tax on all calls where the charge is $.10 or over. The amount of federal tax may be secured from the operator.

If you can give the telephone number of the distant station, the call can be handled more promptly. A special Long Distance Directory for listing numbers frequently called will be furnished, without charge, by calling the Business Office. Additional rates and other information may be obtained by calling Long Distance.

NAME	City	Tel. Number

TRY THIS SERVICE

YOU can save money and get speedier service on long distance telephone calls by calling for the number of the distant telephone wanted, or if the number is not known, then tell "Long Distance" you wish to make a station-to-station call, giving the name of the person or business whose telephone you wish to call.

There is a reduction in rates for all calls between the hours of 7 P. M. and 4:30 A. M. and all day Sunday. Charges on station-to-station calls may now be reversed.

Messenger service is accepted on all person-to-person calls. Appointments may also be made on person-to-person calls.

Place your Long Distance calls by telephone number! This enables the operator to give you faster service.

If the number of the distant telephone is not known the operator will furnish it when completing your call. It should then be listed above for future use.

Give the number and speed up your service!

CAROLINA TELEPHONE & TELEGRAPH COMPANY

IT'S *Easy to Shop* THIS WAY...

You've had it happen yourself—no doubt many times. Wanted to have a rug mended, a chair upholstered, or a new set of awnings for the sun porch.

Who'll do it? Easy, if you turn to the Classified Directory—in the back of your Telephone Directory.

There you will find a list of dealers in all kinds of goods and services—arranged alphabetically by what they sell. You just glance down the list and pick the dealer you want.

You'll save time and bother if you'll let the Classified Telephone Directory help you with your shopping.

What Is a Live Prospect?

He is a man with a lot of questions in mind. He wants to know WHERE and WHAT and WHOM and HOW and WHEN.

And thousands of live prospects are coming to the Yellow pages of this book daily to find out—

WHERE they can buy something.

WHAT they can get for their money.

WHOM they can buy it from.

HOW they can get it.

WHEN delivery can be had.

HAVE you complete REPRESENTATION?

IF NOT—get listed under the various Headings to cover your business.

Are You An Advertiser?

Only representative merchants of a community advertise in the Telephone Directory.

The Directory is their advertising medium, and the telephone, always ready and close by, gives direct connection.

What better modern methods could be adopted for advertising and stimulating your business?

Your advertisement in this directory will increase your business. The telephone directory remains always by the side of the means of giving the order ---the telephone. It is permanently in the homes and offices of the leading people in the city. Rates and information cheerfully given. CALL THE MANAGER.

Carolina Telephone and Telegraph Company

An Advertising Medium That Gets Big Results

The Telephone Directory is indispensable. It goes into homes and offices and stays there in daily use.

It's a good advertising medium and enables you to keep your name hourly before telephone users at a very small cost.

Your advertisement in the Telephone Directory will reach a great number of people, a great number of times, both day and night, at a low cost.

Call our Business Office today and arrange for advertising space in the next issue of this directory.

Carolina Telephone & Telegraph Company

INSTRUCTIONS

Enfield, N. C.

PLEASE READ THE INSTRUCTIONS CAREFULLY, AS THE GOOD SERVICE AVAILABLE DEPENDS UPON THEM.

1. First consult the directory for the number you want to call, remove the receiver and listen for dial tone, which indicates the line is clear, and dial the number wanted.

2. If, after you have dialed the correct number. you hear the busy tone, this will indicate that the number you are calling is being used by someone else. Replace the receiver and call again later.

3. When answering your telephone, answer by giving your name or telephone number. This will help the calling party in knowing whether or not he has dialed the right number, and will eliminate useless conversation.

4. Should you wish to make a second call, replace the receiver for a few seconds to give the apparatus time to restore. Then remove the receiver and dial the number desired.

5. TO DIAL SUBSCRIBERS ON YOUR LINE—
   The numbers are printed with the last figures separated by a dash (241-6). The first three figures indicate the line number (241), and the last figure indicates the ringing code (-6). It will therefore be seen that the numbers 241-1 and 241-6 are on the same line.

   To call a subscriber on your own line, first remove the receiver and listen for dial tone. If the line is clear, dial number 7 and the last figure of your own number and the last figure of the number desired. Replace the receiver and your bell will ring and the called party's bell will ring also. When the called party answers your bell will stop ringing, then remove your receiver and talk. If the called party does not answer you can stop the bells from ringing by removing the receiver and then replacing it.

6. NEVER MOVE THE RECEIVER HOOK UP AND DOWN.
   This will cause wrong numbers.

   The ringing codes are as follows:

241-1	1	1 long ring
243-2	2	2 short rings
245-3	3	3 short rings
251-4	4	4 short rings
262-5	5	1 long, 1 short ring
246-6	6	1 long ring
254-7	7	2 short rings
255-8	8	3 short rings
267-9	9	4 short rings
241-0	0	1 long, 1 short ring

TO CALL WELDON, HALIFAX, JACKSON, LITTLETON, RICH SQUARE, ROANOKE RAPIDS, SCOTLAND NECK, and SEABOARD—DIAL NO. 8

For calls to all other places dial No. 0
For Information No. 0
To Report Telephone Troubles dial No. 0
and call for Repair Clerk.

EMERGENCY CALLS

For Fire Dial 3000
For Police Dial 236-6

INSTRUCTIONS

Spring Hope, N. C.

HOW TO DIAL—(General):

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. After talking, you may wish to put in a second call, in which case hang up your receiver for about five seconds, remove the receiver and dial again.

The first three figures of each number indicates the line number and the last figure indicates the ringing code. For instance, the number 245-1 represents line No. 245 and ringing code No. 1; the number 271-6 represents line No. 271 and ringing code No. 6. The ringing codes are as follows:

Tel. No.	Code No.	Ringing Code
221-1	1	1 long ring
221-2	2	2 short rings
221-3	3	3 short rings
221-4	4	4 short rings
221-5	5	1 long and 1 short ring
221-6	6	1 long ring
221-7	7	2 short rings
221-8	8	3 short rings
221-9	9	4 short rings
221-0	0	1 long and 1 short ring

PARTY LINE—

To call a subscriber on your own line, first take down your receiver, when dial tone is heard dial No. 7 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. The bells of both telephones will ring alternately. When your bell stops ringing this indicates that the other party has answered, then lift your receiver and talk.

Ringing on your own telephone may be stopped by momentarily removing your own receiver from the hook.

To call Long Distance dial 0.

To call Information dial 0 and ask for Information.

To report telephone trouble dial 0 and ask for Repair Clerk.

To call Group Manager's Office, dial 0 and ask for 9000.

Do not move receiver hook up and down. This will cause wrong numbers, or if you are talking, will cause the line to disconnect.

INSTRUCTIONS

Whitakers, N. C.

PLEASE READ THE INSTRUCTIONS CAREFULLY, AS THE GOOD SERVICE AVAILABLE DEPENDS UPON THEM

1—First consult the directory for the number you want to call, remove the receiver from the hook and listen for dial tone and dial the number wanted.

2—If, after having dialed the correct number you get the busy tone, this indicates that the number you are calling is being used by someone else. Hang up the receiver and call again later.

3—When answering your telephone do not say Hello. Say, this is number 221 or whatever your telephone number may be. This will enable the calling party to know whether or not he has dialed the right number, and will eliminate useless conversation.

4—Should you wish to make a second call, pull the receiver hook down and hold it in this position for about 5 seconds. Release the hook, and dial the number wanted.

5—To call a subscriber on your own line, take down your receiver. If the line is clear, dial number 01 and the last figure of your own number and the last figure of the number desired. Hang up the receiver. Your bell will then ring and the called party's bell will ring. When the called party answers your bell will stop ringing. Remove your receiver and talk. If the called party does not answer you may stop the bells from ringing by removing the receiver from the hook, and replacing it.

6—Codes for party lines are as follows:

Code		
271	1	1 short ring.
242	2	2 short rings.
243	3	3 short rings.
274	4	4 short rings.
275	5	1 long and 1 short ring.
276	6	1 short ring.
277	7	2 short rings.
278	8	3 short rings.
279	9	4 short rings.
270	0	1 long and 1 short ring.

7—To call Long Distance Dial 04.

8—To call Information Dial 04 and ask for Information.

9—To report trouble Dial 04 and ask for Repair Service.
